

Don't Believe

Abband

I'm watching the news on TV
Murders, abuse, all disaster and pain
Self-appointed rulers
All we can do
Is listen to their lies again and again
Listen to their lies again and again

Don't believe
Any day of the season
I say don't believe
No fraud at all
Don't believe
For any reason
I say don't believe
Any offer on call

The world is turning schizo
Arrested and jailed for a leaf of grass
Maybe this will be the reason
To run away
And live in a wasteland the rest of your time
Live in a wasteland the rest of your time

Don't believe...

Hundreds of times you were crying
For a little help or support from so called friends
In case people are dying
They remain deaf
Cuz some good job just right for them began
Some good job just right for them began

Don't believe...
