Don't Believe

I'm watching the news on TV Murders, abuse, all disaster and pain Self-appointed rulers All we can do Is listen to their lies again and again Listen to their lies again and again

Don't believe Any day of the season I say don't believe No fraud at all Don't believe For any reason I say don't believe Any offer on call

The world is turning schizo Arrested and jailed for a leaf of grass Maybe this will be the reason To run away And live in a wasteland the rest of your time Live in a wasteland the rest of your time

Don't believe…

Hundreds of times you were crying For a little help or support from so called friends In case people are dying They remain deaf Cuz some good job just right for them began Some good job just right for them began

Don't believe...

Abband
