

# Lord of the Red Land

Adramelech

... The forgotten god walks  
invisible and weary;  
walks for the last time  
over the barren red land.

Deathwish of an immortal,  
doomed god of a dead religion.  
Bones scattered beneath the cold sand  
have no memory...

Inhuman form eternal,  
enemy god untamed,  
creator of confusion:  
adversary feared but envied

Once beyond good and evil,  
amoral chaos force...  
Fear and respect turn to hate:  
defaced, demonized

Pale orphidian terror  
red-eye brotherslayer;  
left-hand moon devourer,  
blood-claw womb-tearer

Defaced effigies...  
demonized, then forgotten  
Worshippers down one by one  
by the blade of time.

At sunrise the last look  
at the lost kingdom  
usurped lord of the south  
now ready to follow those who went before

Dying immortal departing  
for the dreamless sleep  
of the unworshipped gods  
divinity's bitter end
