## Airship

I don't know you as well as I should  
But I guess that's what makes this fun  
We should leave right now  
Before this all fades out

And all our friends  
Will make their beds  
We'll lie in them 'til someone cares

And how do I know that I'm going to be on the right side?  
How do I know that my decisions are always right?  
I guess I don't

I, I met you in your dreams  
Floating through the waves of your sleep  
And when we run we're running together  
And when we sleep we find each other

And all our friends  
Will make their beds  
We'll lie in them 'til someone cares

And how do I know that I'm going to be on the right side?  
How do I know that my decisions are always right?  
I guess I don't

Stay here 'til tomorrow comes...again  
I don't know where we go  
But I don't care
