

# Hesitate

Alice Russell

You've been getting nightmares, because something you didn't do  
,  
We won't get to heaven, unless we start to prove,  
We been going nowhere, and they've been traveling  
We won't get to heaven, unless we stop the spin  
Cause this ain't going my way  
This ain't going my way  
This ain't going my way  
This ain't going my way  
But they know that you'll have to hesitate!  
Cause it could be so fruitful all growing in the sun,  
Picking prizes off the trees, our pride all said and done  
In love my friends, hold hands till the end  
Because we are all just creatures, just walking on the land  
Feasting on the beauty, enough for everyone,  
In love my friends ,hold hands till the end  
Cause this ain't going my way  
This ain't going my way  
No this ain't going my way  
No this ain't going my way  
But they know that you'll have to hesitate!  
Hesitate,  
Hesitate  
Hesitate!  
So why aren't we evolving? Look what's to be done!  
Setting back on evolution, It's up to everyone  
With love my friends, let's hope we mend  
Remember we are all just creatures, roaming on this land  
You must feast on the beauty and lend your helping hand  
With love, my friends, together we must lend  
No this aint going our way!  
No This aint going away!  
No this aint going our way no  
This aint going away  
cause they know that you'll have to hesitate!  
This aint going my way, this aint going our way  
Have to hesitate  
This aint going my way, this aint going our way  
Go hesitate  
This aint going my way, this aint going our way  
Hesitate  
This aint going my way, this aint going our way  
Hesitate
