## **Could This Be Magic**

Could this be magic My dear, my heart's all aglow Could this be magic Loving you so Could this be magic My dear, having your love My prayers were answered So far from above

I thought that it could be Just a memory To linger, my heart in pain But to my surprise I opened up my eyes And i'm with you here in my arms again

Could this be magic My dear, having your love My prayers were answered So far from above

Could this be magic Have your love If this is magic Then magic is mine

I thought that it would be Just a memory To linger, my heart in pain But to my surprise I opened up my eyes And i'm with you here in my arms again

Could this be magic My dear having your love If this is magic Then magic is mine Could this be magic Then magic is mine All 4 One
