

# Outta My Mind

## Anthem Lights

Feelin' like I got a front row seat to watch everybody be happy  
Can't even paint a smile on my face, it's so hard to not compla  
in

Gotta try not to say

O God, what about me

'Cause I know that's not the way that I'm supposed to be

Get me outta my mind and into Your heart

It's not about me, it's not about me

So I'm gonna start playin' my part in Your design

Now is the time

Get me outta my mind

Outta my mind

There's a bigger picture on display and it's starting to come i  
n focus

Causing me to see to see the ones in need outside my little wor  
ld

Gotta try, just to say

O God, what can I do

Doesn't matter what it takes, I wanna lead them all to You

Get me outta my mind and into Your heart

It's not about me, it's not about me

So I'm gonna start playin' my part in Your design

Now is the time

Get me outta my mind

Outta my mind

If anybody asks me what have I been up to

This is what I'm gonna say

I've been spending my time, outta my mind

And I'm really lovin' livin' this way

[x2]

Get me outta my mind and into Your heart

It's not about me, it's not about me

So I'm gonna start playin' my part in Your design

Now is the time

Get me outta my mind

Get me outta my mind

So I'm gonna start playin' my part in Your design

Now is the time

Get me outta my mind

Outta my mind
