

Signs of Life

Arcade Fire

Those cool kids
Stuck in the past
Apartments of cigarette ash
Wait outside until it begins
Won't be the first ones in

Spend your life waiting in life
You find it hard to define
But you do it every time
Then you do it again

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again

First kiss tastes like cigarettes
Dead man walking take your bets
Once again you lost your friends
Around and around again

Those cool kids
Stuck in the past
Apartments of cigarette ash
"Where are we going?"
Who did you ask?

Those cool kids
Stuck in the past
In a world of cigarette ash
"Where are we going?"
Who did you ask?
Who did you ask?

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again

Monday, Tuesday, Wednesday, Thursday
Friday, Saturday, sometimes Sunday
Love is hard, sex is easy
God in heaven, could you please me?

You think you invented life
You find it hard to define
But you do it every time
Then you do it again

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Still looking for signs of life (Signs of Life)
Looking for signs every night
But there's no signs of life
So we do it again

Those cool kids
Stuck in the past
In a world of cigarette ash
"Where are we going?"
Who did you ask?
Who did you ask?

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again

(Still looking)
Looking for signs of life
(Signs of life)
Still looking for signs of life
(Signs of life)

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
