

We Know Where You Live

Argy Bargy

Walk from court with your conscience clear
No remorse not a single tear
Innocent victims are forced to flee,
Condemned to a life of misery
It was only a technicality that granted you your liberty
There's no doubt you'll go to hell
But you should be rotting in a prison cell

We're gonna get you, we're gonna get you
We know where you live

Safe house on the welfare state,
Your victims left to contemplate
The agony you caused that day
The innocence you took away
We don't want you in our town,
But once again we've been let down
Laws ignore public response,
Once a nonce always a nonce

If the laws of the land won't put you away
We'll have to start doing things our own way
We'll make your life hell, you'll have nowhere to hide
The only way out is suicide
