Dancing Alone

Ashlee Simpson

Nobody's gonna hold me back It's Friday night I feel alright Nobody's gonna bring me down It's my life And I'm doing fine Don't you know I wanna play So take me on a holiday

So here I am Looking pretty for you They come and go So many faces it's no use So I'm dancing alone Dreaming solo Cause your love's the one worth waiting for It's just like heaven

Nobody's gonna break my heart And hurt me like they did before No one can even get the part Not until I know it's deep Can't you come and take me away Take me to another place

So here I am Looking pretty for you They come and go So many faces it's no use So I'm dancing alone Dreaming solo Cause your love's the one worth waiting for It's just like heaven

Can you hurry up Can you feel my love I'm burning up I'm so hot I'm so hot I'm so hot Dancing alone Dreaming alone

So here I am Looking pretty for you They come and go No one else here will do So I'm dancing alone Dreaming solo Cause your love's the one worth waiting for It's just like heaven

Like heaven Cause your love's the one worth waiting for The one worth waiting for I'm dancing alone I'm dancing alone I'm dancing alone
I'm dancing alone
