

Without Your Love

ATC

I was so lonely until I met you babe
You were the reason and I wanted you to stay
Now it seems so long and you're back again

You were my first love you'll always be the one
You light my darkness and
You're brighter than the sun
I'm alive when you're in my world baby

I'd love to promise you my heart
I never want to be apart

Without your love without your love
My lonely soul is left behind
Just say you love me one more time
'Cos I would never last a day I'd fade away
Without your love

Give me a reason and I'll be there for you
Give me a sweet smile
Just to make my dreams come true
'Cos you're everything
You're the song I sing
All the joy you bring to my world baby

I'd love to promise you my world
I never want to be apart

Without your love without your love
My lonely soul is left behind
Just say you love me one more time
'Cos I would never last a day I'd fade away
Without your love

And all of your happiness is mine
Just say you love me one more time
I couldn't last another day I'd fade away
Without your love
