Audio Push

[Chorus: Mishon]

Girl I know I've been away
On the road doing shows state to state
You miss the feeling of my arms around your waist
But when I'm gone let the music take my place cause baby I miss your face
And I know you're all alone
You miss my voice on your phone
And you know I'm coming home I got some days to go
I'm on my way for sho
When I'm gone you can turn on your radio

[Verse 1:]

It's about five girls texting me right now
And I'm lying sayin I miss you too
And I tell about four of 'em I'm goin to sleep
Cause I only want to talk to you
So many different woman thinking that I'm wanting them
There's alot of things I gotta do, and you're one of 'em
I call when I landed just to tell you I made it
You call back about this song just to tell me they played it
You said you heard it right now and that it played a couple days ago
Home-girl in the background even said it's on the radio
And I said both ya'll lying you ain't gon' sing it though
And you said it's the one with Mishon and it the one that go
On the radio, on the radio, on the radio, on the radio
I said stop! Ok yeah you really heard it call me when they finish spinning
I miss you and I'll see you in a minute baby girl cause I...

[Chorus: Mishon]

Girl I know I've been away
On the road doing shows state to state
You miss the feeling of my arms around your waist
But when I'm gone let the music take my place cause baby I miss your face
And I know you're all alone
You miss my voice on your phone
And you know I'm coming home I got some days to go
I'm on my way for sho
When I'm gone you can turn on your radio, your radio, your radio
When I'm gone you can turn on your radio, your radio, your radio, yeah

[Verse 2:]

Four plus four equals 8
Y-Y-You plus me equals fate
When you need me turn the music up and ride slow
I miss you like a jump shot, with my eyes closed
It feel wrong but I can make that right
I'm a kill this show, I'm a take that flight
But while the groupies all around me trying to shake that right
I'm a tell them like survival I can't take that ride
Cause I, ain't the cheat on my girlfriend type cat
I'm the type cat to hit the room and want to skype chat
The type to leave, miss you and come right back
And then beat it, I'm a beat it like Mike Jack
So when you turn this song on and want to kiss
Let my hugs be the snare and my lips be the kick
I'll be home soon baby making you laugh
Until then turn the radio on full blast

[Chorus: Mishon]

Girl I know I've been away
On the road doing shows state to state
You miss the feeling of my arms around your waist
But when I'm gone let the music take my place cause baby I miss your face
And I know you're all alone
You miss my voice on your phone
And you know I'm coming home I got some days to go
I'm on my way for sho
When I'm gone you can turn on your radio, your radio, your radio
When I'm gone you can turn on your radio, your radio, your radio, yeah

[Bridge: Mishon]

Girl I know you been checking your phone
And I'm sorry I've been keeping you waiting
Say you want to make love when I'm gone
Just turn to your radio station
You're all alone
Riding around thinking about us
Turn to your favorite song
So you can hear my touch, yeah

[Chorus: Mishon]

Girl I know I've been away
On the road doing shows state to state
You miss the feeling of my arms around your waist
But when I'm gone let the music take my place cause baby I miss your face
And I know you're all alone
You miss my voice on your phone
And you know I'm coming home I got some days to go
I'm on my way for sho
When I'm gone you can turn on your radio, your radio, your radio
When I'm gone you can turn on your radio, your radio, your radio, yeah, hey
