

## Tortured Moans of Agony

### Autopsy

Tortured moans of agony  
I love to hear your feeble cries  
Begging to be put to death  
Extremely slow and cruel demise  
Teeth pulled slowly one by one  
Mangled jaws, Bloody gums  
My love grows each time you bleed  
The mutilation has just begun  
Eyeballs sliced along the lids  
Fluids running down your face  
Try to scream through shredded lips  
Your severed tongue I now shall taste  
Slash your bowels and rip your throat  
Tear your stomach open wide  
Fuck the gash I cum for you  
Semen blends with blood inside
