

# Gimme Back The Paradise

Axxis

I feel the hot rhythm  
I feel the hot beat  
Of the wild life of rock 'n' roll

Travelling on roads  
I've never seen before  
And I feel the music in my soul

Every day another town  
Every night another gig  
And so many people to get to know

But you get no time for rest  
'Cause you wanna be the best  
You give everything  
Tonight in the show

This is a rock 'n' roll paradise  
And I hope it will never end  
But when we finish our tour  
And the last day has come  
I will cry again, again, again and again

Gimme back - gimme back the paradise  
Gimme back - gimme what I want

Gimme back - gimme back the paradise  
Gimme back - gimme what I want

So many different places  
So many different faces  
Things are strange and new  
And when I look behind  
The pictures in my mind  
Makes me feel  
As if I drank a witches' brew

Gimme more from this drink  
It's a help for me to think  
About all that I've seen  
And I've learnt this time  
Music changes every mind  
Everywhere I've ever been

This is a rock 'n' roll paradise  
And I hope it will never end  
But when we finish our tour  
And the last day has come  
I will cry again, again, again and again

Gimme back - gimme back the paradise  
Gimme back - gimme what I want

Gimme back - gimme back the paradise  
Gimme back - gimme what I want
