

# Love You Till I Die

Baccara

Love you till I die  
I think I'm really gonna love you till I die  
Somehow you make me wanna love you till I die  
I've never known a love to last  
I've seen a lot of loves go passed  
I don't know how but I know why  
I'm gonna love you till I die

Love you till I die  
I think I'm really gonna love you till I die  
It's no use fightin' it and I won't even try  
Your ways are hypnotising me  
I feel in chains and I feel free  
I don't know how but I know why  
I'm gonna love you till I die

Love you till I die  
My love would be a river nver runnin' dry  
Deep as the deepest ocean like a mountain high  
A summer breeze, a thunderstorm  
It's our romance that's keeps me warm  
It sounds old-fashioned but it's true  
I'll dedicate my life to you

You will make me cry  
You'll make me sing  
And you will give me wings to fly  
I will believe you  
And I'm sure that you will lie

I don't expect a wedding ring  
'Cos it's an everlasting thing  
And there's no power strong enough  
Apart from that to kill my

Love  
you till I die  
I think I'm really gonna love you till I die  
Somehow you make me wanna love you till I die  
I've never known a love to last  
I've seen a lot of loves go passed  
I don't know how but I know why  
I'm gonna love you till I die

Love you till I die
