

## My Baby

### Balkan Beat Box

She's my baby  
I got how it all should be  
I am home now

When I go it's never far  
The Road is long  
I am home now

I got my name  
And I got my fame  
But I say again  
I am home now

She's not maybe  
She's the one  
The one for me  
I am home now

When you know  
There is no more doubt  
If she's around  
I am home now

I got my days  
And I got my ways  
But I say again  
I am home now
