

Keep Dancing

Becca

Do you ever feel alone
When you're dancing in a crowded room
And everyone is staring at you
Do you ever feel like
You gotta change your point of view
They're gonna think whatever they do

Everywhere that I go
I'm a stranger inside
Leave me on the dance floor
And I'll make it

If you can't face the day
Dance it all away
Just dance it all away
Keep dancing
Nothing left to say
Just dance it all away
Dance it all away

Do you ever wonder if
This planet is not your home
Cuz no one speaks a language you know

I don't want to feel like
I'm living in a mystery
Where answers never seem to find me

Don't know what I'm here for
But I'll feel it
Once I find a dance floor
I will steal it

If you can't face the day
Dance it all away
Just dance it all away
Keep dancing
Nothing left to say
Just dance it all away
Dance it all away

Don't ever be a fool,
For someone else's way,
It's not up to them,
Who are they to say
Who you turn out to be
Isn't just by chance
It will happen when you're not scared to dance alone

Do you ever feel alone
When you're dancing in a crowded room
And everyone is staring at you

If you can't face the day
Dance it all away
Just dance it all away
Keep dancing

Nothing left to say
Just dance it all away
Dance it all away
Keep dancing
Every single day
Dance it all away
Dance it all away
