Hearts In The Night

Bedouin Soundclash

I'm breaking down but I'm on Hope Road. If you still love me then let a boy know, Down empty streets that forgot their names, Out names forgotten but the love still remains

Walking down past avenue B I Feel the pressure of the night as it breathes... ... well that's the sound of a heart in the night Breathing so slow in the heat of the midnight

Deep in the city is a man who sings a song All night long i hear his voice borning on, To lost faces in the seams of the night That all unravel in the first morning light

Walking down past Avenue B I feel the pressure of the night as It breathes..
