

# Wing and a Prayer

Bee Gees

Now it begins, I see it in your eyes  
And I know how you feel, you long to touch the sky  
The flame of life, let it eat your heart out every night  
But you're not alone

This is your world, this is your world  
Lovers in ancient time, caught in the fire  
Only the strong survive, how can we face tonight  
Live an illusion, don't let it fade and die

Something deep inside you, a wing and a prayer will guide you  
Something deep inside you  
Something deep inside you, a wing and a prayer will guide you  
Something deep inside you

Go now, girl, don't look back  
This is your one big chance  
I place my fingers to your lips  
And I tell you my love flies with you  
On a wing and a prayer  
On a wing and a prayer

No muscle and bone, rhythm is the key  
There's everything to play for, you're everything to me  
The game of life, win it and your love comes tumbling down  
You'll never be alone, never be alone, never be alone

This is your world, this is your world  
Lovers in ancient time, caught in the fire  
Only the strong survive, how can we face tonight  
Live an illusion, don't let it fade and die

Something deep inside you, a wing and a prayer will guide you  
Something deep inside you  
Something deep inside you, a wing and a prayer will guide you  
Something deep inside you

Something deep inside you, a wing and a prayer will guide you  
Something deep inside you  
Something deep inside you, a wing and a prayer will guide you  
Something deep inside you

Something deep inside you, a wing and a prayer will guide you
