

## Good Love

Beres Hammond

Can't believe I say these words to you  
Could you erase them from your mind  
How could I, how could I

Oh no when I know  
Good love is hard to find  
If you dis you'll find  
You shall do the time  
Good love is hard to find, yes  
If you dis you'll find (now you gonna find)  
You shall do the time

It's early in the morning  
Stretched across the bed to touch you  
And you're not there  
I picked up the phone and called your best friend  
I guess it's just not my day  
'Cause you can't be found anywhere  
The more I keep missing you I keep forgetting  
You said you'd scratch me out of the page  
It's funny how something simple  
Can make you change

When you're in love  
It's such a wonderful thing  
Makes you smile and sing  
The joy you share no kid in candy land  
Or fun world can compare  
Don't tell me it's not meant to be  
Just you and me for eternity  
And maybe you have a different view  
But I don't want you to go  
'Cause you are all that I know  
And I know
