## **Owned And Operated**

One nation under God family owned and operated Resist! Protest! These colors may not run but they sure seem like they're faded Resist! Protest! Land of opportunity But not for you and me Is this how it has to be? Don't need no revolution Don't need to retribution We got a problem with an obvious solution Disarm and put away the pride Patriotic ego yet we struggle to survive Cease Fire, how many have to die before we learn? Now we're gonna burn Never gonna learn Never gonna fight your fucking war You're settling the score Predation of the poor What are we fighting for? We won't fight your fucking war Increase the budget for a slaughter overseas Impede progress! But cut the spending to control disease Send help, distress! The land of opportunity Kids sleeping in the streets Is this how it has to be? Can this land of liberty Win the war on poverty? Don't want to see defeat if this is victory Disarm and put away your pride Patriotic ego yet we struggle to survive Cease Fire, how many have to die before we learn? Now we're gonna burn Never gonna learn Defend front lines and be promoted to a slave Eminent domain will take our homes and graves We voted in the past Not voting anymore Another four, another four Of poverty and war
