

# All Night Long

**Billy Squier**

I get up I run through the world like a fire  
Heat it up I swim in the flames of desire  
Chase it if you care take it if you dare it's there in the air  
Answer to the gun--dance in the sun run boy run  
Run for your life you're movin' on and on  
The art of survival is turnin' me on

And I'll be chasin' it all night long (don'tcha wanna live)

I get out I roam through the streets like a tiger  
Let it out I swing like a bird on a wire  
Everywhere you go everybody knows oh don'tcha know  
Everythin' you do anybody new--they're all on to you  
Fight for your life turn it all around  
The art of survival isn't gettin' me down
