

## A Quiet Mind

Blue October

A slow strangle with feet on the floor  
I've got 14 angels and we're sleeping alone  
In the back of a cave, where the rest of us go  
To feel normal

I call baby up. Leave me alone.  
I'm in pain but I won't let you band-aid the wound  
I'm mad at a stage where I can't even handle my own

Give me a quiet mind and I...  
I love you  
You give me a quiet mind and I...  
I love you

Until the end...

And the song goes on with the same pattern.  
Good luck and have a great day.
