## Xanadu

[Intro] Xanadu Xanadu Love isn't easy when it's too far away You need a lot of faith and dedication I don't have that problem, I see you everyday An hour filled with hope and inspiration... [Chorus x2] Xanadu, I've been waiting my whole life For a chance to meet a girl just like you And I believe it's gonna be you and me If you will get to know me too... I love all about you, but you don't know who I am Sure is a complicated situation So what if I'm dreaming, I'm dreaming I am your man And we wake up in a real life conversation... [Chorus x2] I feel in love with a girl on TV She captivates me On reality TV She's looking at me but she cannot see me. I hope she will be more than a fantasy.... [Chorus x2] I fell in love with a girl on TV She captivates me On reality TV
