## **Buttercup**

And I love to tie you up And you love to let me down We both try to cover it up With a sound You ain't my buttercup I ain't your little fool I know that ain't a part of the deal We're through It's just a matter of time

It's just a matter of time And I'd love to share the cost

Butterfly The reason why we need to fly, high away It's just a matter of time

It's just a matter of time Before we're thrown back in the wheel! Before we're thrown back in the wheel! Baby, I'll be hard pressed

Maybe we're more simple too Ain't a region of water! Before we're thrown back in the wheel!
