Closer To Your Love

Britny Fox

Steal a feel of your love Because you give it to me Cold heart healed You spread your wings for me

Open arms wrap around You know it's dead and gone Change of weather, I feel you now I finally see the sun

And I'm movin' closer Closer to your love Movin' closer Closer to your love

Nothin' more missin' now From our love in the past Feel you all closer to me We're gonna make it last

Open arms wrap around Holdin' back is dead and gone Change of weather I feel you now I finally see the sun
