

A Special Kind Of Guy

Bryan Ferry

A special kind of guy
Would take you by the hand
For all the world to see
Wish it could be me

Just give him one more chance
He'll never let you down
Without your love
He'd be incomplete

Everything you want
Everything you need
There by your side
Wish it could be me

When you're with me
Every problem
Seems to disappear
Fields of roses burst into flower
And everyone a tear

A special kind of guy
Would take you by the hand
For all the world to see
Wish it could be me

Girl don't leave me in the dark
Since we've been apart
I'm all at sea

Others tell me that you're lonely
With such certainty
But how can I be sure
You'll phone me
It's impossible to see

A special kind of guy
Would take you by the hand
For all the world to see
Wish it could be me

Just give him one more chance
He'll never let you down
Without your love
So incomplete

Everything you want
Everything you need
There by your side
Wish it could be me

Girl just give me
One more chance
Never do ignore
Just try to understand
My love
