## **Eyes of Amber**

## **Buffy Sainte-Marie**

Eyes of blue Or eyes of green Eyes of amber Eyes of starlight Have come again as they have Come before Heart of fire light Heart of the flowers of the Jungle Heart of snow You come again and you are Midnight wind With hands of Moon beams And clouds And call me "Come" To you And though I never know you Wistful lover Until you're gone You're here to teach me How to love A dream of loving love Breath of jasmine Breast of silk Breast of music The desert sands That take my tears Are of your magic too Eyes of blue Or eyes of onyx, Eyes of amber Eyes of starlight You come again as you have Come before
