Baby, I need you here with me
Because I've tried to make you understand
I want you, each move you make
I realize you are the right one for me

Move it up, come baby, move it up
Come baby move it up
Come baby move this rhythm
Move it up, come baby, move it up
Come baby move it up
Come baby move this rhythm

Ha, Ha, Ha, gonna move it up, gonna move it up Ha, Ha, Ha, gonna move it up, gonna move it up Ha, Ha, Ha, Ha, gonna move it up, gonna move it up

На, На, На...

Take the chance, now step this way Make the move, now seize the day For what you had is what you miss Hand in hand, you know you wish

That's the way I feel
The way I'm gonna be
That's the way I feel
That's the way I feel
The way I'm gonna be
That's the way I feel

Move it on up, move it on up, move it up
Move it on up, move it on up, move it up
Move it to the rhythm - move it up
Move it to the rhythm
