

## Back Of The Room

Charlie Mars

I was hanging out  
She was hanging out  
In the back of the room  
They had a black light  
It was just another night  
The end it was coming soon  
Katie, won't you tell me what is on your mind  
She said all I want is someone to love me  
All I want is somewhere to go  
These boys they get me in the twilight  
Believing that I'm alright  
Like I got nothing to lose  
They were playing Peaches  
Sex was on the beaches It smelled like French perfume  
Somewhere in MISSISSIPPI  
Like to dance to you

Katie, girl, won't you tell me what is on your mind  
She said all I want is someone to love me  
All I want is somewhere to go  
These boys they get me in the twilight  
Like I got nothing to lose  
If nothing feels better than blood on blood  
Katie maybe we should take a turn or two  
Damn I like dancing with you I was hanging out  
She was hanging out In the back of the room  
They had a black light It was just another night  
The end is always coming soon  
Damn I got nothing to lose.
