There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come

There's still much to be done
But look how far we've come
