

# I Need More

Christina Milian

I can no longer see myself being the girl for you I used to see  
you've done so much to bring me down  
When I think about how you treated me I no longer need to try a  
nd be perfect for you, cuz now I see im  
Just something to throw around you were never down just mislead  
ing me

I need more than wat ur givin, wat ur givin I cant take no nore  
of being second in line in ur  
Eyez heard it all before, time to even the score it'll be a col  
d day in hell before you ever see ur  
Gurl shed another tear, boy you better hear me

Friends is the phrase you used to describe our relationship it  
was best for you so when the other  
Gurls come around u would have an out, to do that do now I foun  
d in me the strength to say the hell  
With you and let it be no more will I be sick and down or think  
in bout lovin you

I cant deny I miss you (cant deny I do) and I cant deny I wish  
you (wish you only knew) how to treat a  
Gurl who'd give her whole world to you but I understand you now  
you'll never appreciate somebody like me
