

# She Still Loves You

Chuck Berry

She came to me when  
My own heart was in much need of hers  
Sometimes we'll try and reach  
For things we know we each want and don't deserve  
I felt I was wrong it seemed she belonged to someone else  
She heard my words and trust  
But in her arms I just could not help myself

It showed she was blue  
She talked about you the whole night through  
I don't think you'll ever know  
How sincerely she is so much in love with you

When she came to me  
It was so hard to see  
How she loved you so  
I wonder if you know  
Someone should tell you so  
Because she'll never will

A few times that she  
Had turned towards me  
She was so blue  
And hungry just to hear  
The words of love as clear  
Come to her from you

When I gave up on her  
As much as we were both lonely and blue  
She still love you so  
I thought you out to know  
She still loves you
