

## For All We Know

**Chunk! No, Captain Chunk!**

For every man that we have talked about,  
For all these times spent with friends hanging out.  
From the parties to the memories,  
For all we know we will sing these melodies.

I am feeling you my friends by my side until the end.  
I am going to depend on my guys I defend.

Hey dude I need to know what you are ready to do for everyone,  
at anytime.  
And you can count on us for all the things you will do and all  
my guys stand in line.

Live for today and learn from yesterday,  
I make my way, but my friend is never away.  
But we will be friends until the end of time,  
Cause we all know our friendship will ever shine.

Hey dude I need to know what you are ready to do for everyone,  
at anytime.  
And you can count on us for all the things you will do and all  
my guys stand in line.
