

I'm in the Mood for You

Clay Walker

All day long at the work today baby I couldn't concentrate
Every time I try to get it done, I could only see your face
Honey I'm in the mood for you
Women, I'm in the mood for you

On the way home it was all backed up even in the passin' lane
Too bad I had one of them monster trucks baby I'd been on my way
Honey I'm in the mood for you
Baby I'm in the mood for you

There never seems to be enough
Time for me to drink you up
And girl tonight that's all I wanna do
I'm in the mood for you

I just wanna taste your kisses, sweeter than a fine champagne
I wanna feel you whisper fallin' on me like the rain
I got a hunger in my heart and a fever burnin' on my brain
Baby, I'm in the mood for you
Women, I'm in the mood for you

There never seems to be enough
Time for me to drink you up
And girl tonight that's all I wanna do
I'm in the mood for you

I'm in the mood for you
I'm in the mood for you
I'm in the mood for you
