## I'm in the Mood for You

## **Clay Walker**

All day long at the work today baby I couldn't concentrate Every time I try to get it done, I could only see your face Honey I'm in the mood for you Women, I'm in the mood for you

On the way home it was all backed up even in the passin' lane Too bad I had one of them monster trucks baby I'd been on my wa Y Honey I'm in the mood for you Baby I'm in the mood for you

There never seems to be enough Time for me to drink you up And girl tonight that's all I wanna do I'm in the mood for you

I just wanna taste your kisses, sweeter than a fine champagne I wanna feel you whisper fallin' on me like the rain I got a hunger in my heart and a fever burnin' on my brain Baby, I'm in the mood for you Women, I'm in the mood for you

There never seems to be enough Time for me to drink you up And girl tonight that's all I wanna do I'm in the mood for you

I'm in the mood for you
I'm in the mood for you
I'm in the mood for you
