

## Another Man

Cloud Nothings

I'll be over in, gunna lean them into me  
I guess he'll turned you around  
But he's too close to me  
1 2 3 he let go of me  
I said leave me alone  
1 2 3 he let go of me  
I said leave me alone  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I'll be over in, gunna lean them into me  
I guess he'll turned you around  
But he's too close to me  
1 2 3 he let go of me  
I said leave me alone  
1 2 3 he let go of me  
I said leave me alone  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down  
I will find another man to chase you down
