Now Hear In

Cloud Nothings

I go outside and see all these things that should be real Come on you're a part of it can you but can you feel You're not the same as me but I know we share a thing

I can feel your pain, and I feel alright about it

We're moving quickly to sun (Now hear in) I feel there's nothing left to say (Now hear in) A simple life could be so strange (Now hear in) Refuse to (Now hear in)

You know there's nothing left to say
