

Whatever You Became

Cold

Whatever you became
Blame it on my fame
Always away from you
Sold my life for a song
Whatever you killed
The blood got on my face
See it took over you
and your minds nearly gone

R: And I can't change my ways
Sorry it's my fault
I wasn't there to see
Whatever you became
Whatever you became

Whatever you became
you blame it on blind faith
can't turn away from you
what's my life if your gone
Whatever you feel
I take it on my stage
I sing to the world for you
and I'm always alone

R:

I can see it all
You're so far away
I can't take this anymore
I can't live until I see your face
I can see it all
You're so far away
I can't take this anymore
I can't live until I see your face

R:

Somethings gone away
You've taken this from me
Until I see your face
I'm slipping away
