

Gone Too Far

Dan Fogelberg

World spinning out of control
The odds diminish every die we roll
But we are still in the game
If we should lose there's only us to blame

Or have we gone too far
Am I just wishing on a dying star
Oh tell me have we gone too far

Look 'round you, what do you see
Six billion people where there's room for three
And so many mouths go unfed
Oh Father give us all our daily bread

Or have we gone too far
Are we just wishing on a dying star
Oh tell me have we gone too far

Each year we find newer ways
To turn this planet into empty space
So close now to zero ground
We've got to find a way to turn it 'round

Or have we gone too far
Are we just living on a dying star
Oh tell me have we gone too far

Or have we gone too far
Are we just wishing on a dying star
Oh tell me have we gone too far
