

## New Drug

De/Vision

I lost my sight when I got stun  
I never bled so  
Do I slide into vice  
Till I'm gone?

You're like a dive into the wild  
Like poems  
Holding me as gentle  
As a new born child at night

Then sorrow breaks  
The silent spell  
My mind is clearing up  
And takes me back  
Into my shell  
Back to hell

I hope you  
Won't see me through  
Like I do  
I can't get  
You out of my mind  
I see still I'm blind  
I hope you  
Won't see me through  
Like I do  
I can't get  
Me out of this hug  
Just be my new drug
