

## Going Steady

Death from Above 1979

Oh you should see her now  
We still love her now  
She is going steady  
But we're not ready  
To see her fall in love

I know you are getting older  
We should never turn our shoulder  
I have never seen you suffer  
I will never hurt you mother  
...

I will never make you suffer  
I will never hurt you mother
