

Go into the Water

Dethklok

We call out to the beasts of the sea to come forth and join us,
this night is yours
Because, one day we will all be with you in the black and deep
One day we will all go into the water

Go into the water
live there die there
live there die

We reject our earthly fires
Gone are days of land empires
Lungs transform to take in water
Cloaked in scales we swim and swim on

We are alive, and we'll metamorphasize
And we'll sink as we devolve back to beasts
Our home is down here, and we've known this for years
We must conquer from the sea, we build an army with water steed
s

We'll rise, from our depths down below
Release yourselves, drown with me
We will conquer land with water

Gone are days of land empires
Lungs transform to take in water
Cloaked in scales we swim and swim on
We swim on
We swim on
