## Go into the Water

## **Dethklok**

We call out to the beasts of the sea to come forth and join us, this night is yours

Because, one day we will all be with you in the black and deep

One day we will all go into the water

Go into the water live there die there live there die

We reject our earthly fires

Gone are days of land empires

Lungs transform to take in water

Cloaked in scales we swim and swim on

We are alive, and we'll metamorphasize
And we'll sink as we devolve back to beasts
Our home is down here, and we've known this for years
We must conquer from the sea, we build an army with water steed s

We'll rise, from our depths down below Release yourselves, drown with me We will conquer land with water

Gone are days of land empires
Lungs transform to take in water
Cloaked in scales we swim and swim on
We swim on
