My little dreamone, you O. K.? I'm thinking about you everyday Along with your smile, I took my belongings Along with the sunshine, I went away There is a space here, there is a void I need to find, a little more time gimme time Of all of the fuckups that I do I've saved up the best one for you Heaven and moonshine, you gotta be kidding You wanted to give it a try and I didn't I never wanted to be looking back I need to find a little more insight gimme insight I'm getting better everyday I just don't care what they say People are talking, they were talking before They don't even know who we are anymore I never wanted to be looking back I need to find, some peace of mind gimme peace of mind

My little dreamone, you O. K.?
I'm thinking about you everyday
Along with your smile, I took my belongings
Along with the sunshine, I went away
There is a space here, there is a void
I need to find, a little more time gimme time

Whispered in
The way you cling
We find made
Our special thing
Stone Madly I
Hellbent on my
Coming for you
