Ever since school days I've walked a fool's way With no love to find me No dream to hide me No kindness inside this heart with a stone's kiss Just a short fall to the dawn, when you're walking on dead man' Down on Damnation street You got nobody's love Down on Damnation street We got nobody's love Walkin', Walkin' Down on Damnation Street Did you ever have a chance of finding someone who needs you? This world has got itself And there's nothing for the likes of you and me Without love You'll try it, you'll buy it, you'll find it empty As a stones kiss Just like your date with Jesus When you're walking on dead man's feet Down on Damnation street You got nobody's love Down on Damnation street We got nobody's love Walkin', Walkin' Down Better get on your knees Humility please Gotta pray to be free From the slavery of freedom Free to be nothing 21st Century here and now Then gone like a thief in the night Walkin' Damnation Street walking Walkin' Damnation Street walking Just goin' down, down, just going Down, just goin' down, down, just going Down down on Damnation Street
