## **Destination Moon**

Come and take a trip in my rocket ship We'll have a lovely afternoon Kiss the world goodbye and away we fly Destination moon

Travel fast as light 'til we're lost from sight The earth is like a toy balloon What a thrill you get ridin' on a jet Destination moon

We'll go up up up up Straight to the moon we two High in the starry blue I'll be out of this world with you

So away we steal in a spacemobile A supersonic honeymoon Leave your cares below, pull the switch, let's go! Destination moon

There once was a time when the colorful thing to do Was to call for a date on a bicycle built for two But cars and trains and even planes All have had their day Now the time is due to call for you In the modern atomic way

We'll go up up up up Straight to the moon we two High in the starry blue I'll be out of this world with you

So away we steal in a spacemobile A supersonic honeymoon Leave your cares below, pull the switch, let's go! Destination moon
