

## Stay

DJ Encore

I won't pretend tonight  
That what I did was right  
I know I broke your heart  
I tore it all apart  
Do you believe in destiny  
And second chances

Stay tonight  
Let the moment be forever  
I don't want to force your heart to  
Stay tonight  
If we make it last together  
Everything is gonna be alright

I know the table's turned  
I felt my fingers burn  
And if you let me go  
I'm just a fragile soul  
Do you believe I destiny  
And second chances

Stay tonight  
Let the moment be forever  
I don't want to force your heart to  
Stay tonight  
If we make it last together  
Everything is gonna be alright (2x)

Stay tonight  
Stay  
Forever
