

Fuck 'em
Can't stop me think I'm messin around
You think I'm messin around
Well are you messin around with me
Truth is I've seen the ups and the downs
And through the losses and the founds
Well I'm right where I wanna be

Stop thinking everybody's shakin
You never get a break you're never gonna go
Stop thinking everybody's shakin
I never gotta break but

I survive
You can tryn but you can't deny me
I survive
Like a lie that just won't die
I survive

Fuck you ya think I'm messin around
You think I'm messin around
Well I ain't messin around you see
Back off you'll find your ass on the ground
And when I roll through your town
Well I'll be layin you down to sleep

Stop thinking everybody's shakin
You never get a break you're never gonna go
Stop thinking everybody's shakin
I never gotta break but

I survive
You can tryn but you can't deny me
I survive
Like a lie that just won't die
I survive
