

Daydreamer

Dotan

I'm sending you an invitation
Come look inside my head
Let's have a mental vacation
We'll dream without a bed

I'm a daydreamer
Come see what I see
I'm a believer
All that I need is the air that I'm breathing
And you here with me
There's nothing more than that
So won't you dream with me

Let's have a great adventure
We'll walk the streets of London town
And in my imagination
We'll be the only ones around

I'm a daydreamer
Come see what I see
I'm a believer
All that I need is the air that I'm breathing
And you here with me
There's nothing more than that
So won't you dream with me

Dream with me
Dream with me
Oh, won't you dream with me
Dream with me
Dream with me

Forget the worries in your head
Come away with me instead
Live a life you won't forget

I'm a daydreamer
Come see what I see
I'm a believer
All that I need is the air that I'm breathing
And you here with me
There's nothing more than that
So won't you dream with me

Dream with me
Dream with me
Oh, won't you dream with me
Dream with me
Dream with me
